

August 2016

To our valued clients and partners:

As part of the ongoing evolution of E. Holland Contracting Inc.'s growth, we are proud to announce the launch of the new company brand, **Holland Power Services**.

Over the coming days and weeks, you will notice changes to our website, promotional literature and stationery that will reflect and reinforce our new brand. **Holland Power Services** represents the organization's growth and geographic expansion into new market areas while maintaining the same values and service offerings of E. Holland Contracting Inc.

What it means to you and our other business partners, is "business as usual", and all of our Journeyman Power Line Technicians, Electrical Mechanics, Certified Electrical Technicians, Electricians, fleet maintenance staff and office staff are here to provide you with the same great service and expertise that you have come to expect.

With the establishment of **Holland Quebec Inc.** in 2014 and **Holland New England** in 2016, we now have a greatly expanded capacity to serve both our Canadian and American clientele.

As we move forward into this exciting time of growth, I'd like to take the opportunity to thank you: our loyal clients and business associates. Without your ongoing support, this exciting evolution of our company would not be possible. We look forward to a future with you that is mutually positive and productive, as we continue to provide our usual quality service under our new name.

Best Regards,

L. Earl Holland, President
Holland Power Services
